PROGRAM DETAILS

The Mental Health Support Specialist Apprenticeship program prepares students for a rewarding and in-demand career in mental health care. In this profession, mental health support specialists assist licensed mental health professionals, such as psychiatrists, psychiatric nurse practitioners and therapists, in the comprehensive care of psychiatric patients.

This program prepares students to become Mental Health Technician Certified (MHTC) by the American Medical Certification Association (AMCA). Students who earn the AMCA designation have demonstrated the knowledge of processes and procedures in mental health care, pharmacology, medical office and patient care skills, including practice settings, and a broad understanding of psychological development, including mental health disorders.

The primary course in this program is HI-7013: Fundamentals of Mental Health Care, this highly interactive course immerses students into the world of a Mental Health Support Specialist through virtual scenario-based learning exercises and brings three-dimensional clinical skills demonstrations right to the learner's desktop.

Because graduates will be working in a healthcare facility, it's imperative they be able to speak and understand the language of medicine and have a fundamental understanding of basic human anatomy and physiology. HI-1014: Introduction to Human Anatomy and Medical Terminology is included to lay this important foundation.

Today's top job candidates not only need to be prepared to pass a certification exam but must also be equipped with soft skills and knowledge that allow for success on the job in any environment. This program contains training in professionalism designed with input from employers and professionals in the field of allied health. PS-1011: Professionalism in Allied Health equips students with essential soft skills that are in demand and expected by employers in a competitive job market.

Payment for the Mental Health Technician Certification (MHTC) exam is provided by MedCerts. The Registered Apprenticeship program is comprised of MedCerts online training programs as well as 2000 hours of on-the-job training with a sponsoring employer. MedCerts Apprenticeship programs combine class training and "on-the-job training" to provide individuals the opportunity to apply the knowledge and skills learned with an employer to quickly become a strong contributor in the workplace.

Throughout the Mental Health Support Specialist Apprenticeship program, students will learn the skills to:

- ✓ Distinguish intake, crisis care, inpatient care, and discharge duties
- ✓ Recognize psychology and substance use terminology and apply that knowledge where applicable to psychiatric team communication
- ✓ Demonstrate skills in observation, communication, interpersonal needs and working well under stress
- ✓ Maintain client confidentiality and adhere to HIPAA and HITECH privacy and security laws
- ✓ Demonstrate understanding of Electronic Health Record (EHR) functionality and documentation

CAREER SERVICES

For all MedCerts Students that are not affiliated with an employer partner, you also have the added benefit of Job Search Assistance including guidance with resume building, networking, interviewing, and job search tips.

MedCerts is a Department of Labor Registered Apprenticeship Intermediary Sponsor. MedCerts has competency-based standards and will provide all the Technical assistance and support for employers.

Some training programs and/or certifications may not be accepted in your state, please review our [State Restriction](#) page to confirm eligibility

EXPERIENTIAL/CLINICAL COMPONENT:

Experiential/Clinical Component Requirements (not applicable to the HI-7200A Mental Health Support Specialist Apprenticeship Program) – Once students complete this program, they will be able to immediately start working with Career Services at MedCerts. Experiential learning or clinicals are not required to get a job in this field.

CRIMINAL BACKGROUND CHECKS AND DRUG SCREENING POLICY:

MedCerts does not perform criminal background checks, nor do we test students for illicit drug use. Please be advised that while MedCerts does not perform these checks, the student's drug, criminal, or immunization status may prevent clinical/externship placement and future employment as a healthcare or IT professionals. Externship sites, employers, and State Boards of Pharmacy or other regulatory boards have regulations about immunizations, drug use, and criminal backgrounds. Regulatory boards, externship sites, employers, and other organizations that may require these screenings for placement, and adverse results may prohibit you from moving forward in the program. Candidates with a felony conviction are not eligible to participate in ANY MedCerts program that includes the Pharmacy Technician certification as a primary or secondary certification

The student understands that MedCerts does not hold any control over the drug, immunization, criminal, or background screening processes or policies held by any organization outside of MedCerts.

Upon 100% completion of this program, students will receive a "MedCerts Certificate of Completion." This is proof of completion of training but isn't a nationally recognized certification. Students are expected to take and pass the national certification exam through the issuing authority for recognized certification in their field.
