### PROGRAM DETAILS

The demand for Medical Scribes in the United States continues to grow, as more and more physicians and health care providers realize the benefits scribes bring to their practice. Traditionally, for every hour that physicians provide direct face time to patients - 2 more hours are spent on Electronic Health Records and other clerical work. A growing strategy to decrease this clerical burden is to use Medical Scribes trained to document patient encounters in real-time. Studies have shown that Scribes improved all aspects of physician satisfaction, including overall satisfaction, physician facetime with patients, time spent charting, chart quality, and chart accuracy.

Since the EHR is at the core of a Medical Scribe's daily job functions, students will gain knowledge of medical clinic workflow systems by engaging and interacting with a Simulated Software Application. Students track a patient from the time the patient calls for an appointment through the entire revenue cycle. The book and software activities included in this program use a building block approach to learning the medical clinic workflow processes. This approach ensures that students are prepared to synthesize and organize medical data into a coherent entry so that it complies with office protocols, federal regulations, and insurance requirements.

The payment for the MSCE credentialing exam is provided by MedCerts, which when passed grants status as an Apprentice Medical Scribe Professional (AMSP).

Throughout the Medical Scribe Professional program, students will learn to:

- Understand basic human anatomy and utilize medical terminology in order to effectively communicate in a healthcare facility
- Comply with relevant laws and ethics, the Omnibus Rule, HIPAA, and HITECH
- Display strong attention to detail and accuracy with use of electronic health records
- Demonstrate electronic health record documentation as applicable to the clinic workflow
- Explain how medical coding plays a role and impacts the clinic workflow and revenue cycle
- Gain an understanding of laboratory testing and pharmacology as applicable to the EHR

While MedCerts training and related target certifications may be accepted and/or approved by your state of residency, employers reserve the right to dictate pre-requisite education, experience, or certification/licensure requirements for their positions. These requirements may exclude a MedCerts graduate from eligibility. We strongly advise students to research target job posts from area employers and relevant state requirements, barriers or restrictions to ensure eligibility upon graduation.

Some training programs and/or certifications may not be accepted in your state, please review our [State Restriction](#) page to confirm eligibility

### ATTAINABLE CAREERS

- Medical Scribe
- Medical Records Specialist

### TARGET CERTIFICATIONS

Certifications	Issuing Authority	Exam Details
Apprentice Medical Scribe Professional (AMSP)	American Healthcare Documentation Professionals Group (AHDGP)	100 Questions 1 Hour 15 Minutes

Course Code	Title	Hours	Weeks	Course Materials (Included)
PS-1011	Professionalism in Allied Health	32	10	None
HI-1014	Introduction to Human Anatomy and Medical Terminology	96	33	PDF
HI-6015	Medical Scribe Essentials	96	33	eBook
	AMSP Certification Pathway		26	

### CERTIFICATION EXAM ELIGIBILITY

Each certification body has its own eligibility requirements. Please make yourself familiar with these before applying for national certification testing. MedCerts sponsors certification but it is up to the student to ensure they meet eligibility requirements.

### EXPERIENTIAL/CLINICAL COMPONENT:

Experiential/Clinical Component Requirements - The Apprentice Medical Scribe Professional (AMSP) credential is awarded to a candidate who successfully passes the Medical Scribe certification exam and possesses less than 200 hours of documented front-line, on-the-job medical scribe experience.

### CRIMINAL BACKGROUND CHECKS AND DRUG SCREENING POLICY:

MedCerts does not perform criminal background checks, nor do we test students for illicit drug use. Please be advised that while MedCerts does not perform these checks, the student's drug, criminal, or immunization status may prevent clinical/externship placement and future employment as a healthcare or IT professionals. Externship sites, employers, and State Boards of Pharmacy or other regulatory boards have regulations about immunizations, drug use, and criminal backgrounds. Regulatory boards, externship sites, employers, and other organizations that may require these screenings for placement, and adverse results may prohibit you from moving forward in the program. Candidates with a felony conviction are not eligible to participate in ANY MedCerts program that includes the Pharmacy Technician certification as a primary or secondary certification

The student and guardian understand that MedCerts does not hold any control over the drug, immunization, criminal, or background screening processes or policies held by any organization outside of MedCerts.

Upon 100% completion of this program, students will receive a "MedCerts Certificate of Completion." This is proof of completion of training but isn't a nationally recognized certification. Students are expected to take and pass the national certification exam through the issuing authority for recognized certification in their field.

Please carefully review the above program specific information and contact your Student Success Advisor if you have any questions or require further clarification of the contents.
