PROGRAM DETAILS

The H1-7100 Cloud Computing program is recommended for experienced IT professionals looking to expand in their role, gain more earning power, and demonstrate proficiency in cloud computing. As technology continues to evolve, and businesses explore new methods of doing things, it is critical that IT professionals keep pace with this evolution. Cloud computing is not new, but its evolution has accelerated in the last 10 years.

The CompTIA Cloud+ certification is a vendor neutral, performance-based certification that validates the skills and knowledge required of IT practitioners working in cloud computing environments. Competencies include cloud infrastructure and cloud models, virtualization, infrastructure management, security, and resource management.

Cloud computing is creating new opportunities, both for businesses and people interested in working in the field of computer sciences. Cloud computing allows businesses to have the flexibility and efficiency to meet new and growing demands. It provides the infrastructure, software, and platforms necessary for success in today's business landscape, no matter where they're needed. However, as the presence of cloud computing becomes more widespread, the demand for professionals who can manage these networks properly is also becoming more pronounced.

Upon completion, MedCerts will sponsor the cost of the Cloud+ Exam.

Throughout the Cloud Computing (Cloud+) program, students will learn the skills to:

-  Analyze system requirements to successfully execute workload migrations to the cloud
-  Determine proper allocation of cloud resources and apply necessary changes, based on performance data.
-  Troubleshoot capacity, automation, connectivity and security issues related to cloud implementations.
-  Apply appropriate technologies and processes, including automation and orchestration, to ensure desired system performance.
-  Implement appropriate security controls given requirements.

While MedCerts training and related target certifications may be accepted and/or approved by your state of residency, employers reserve the right to dictate pre-requisite education, experience, or certification/licensure requirements for their positions. These requirements may exclude a MedCerts graduate from eligibility. We strongly advise students to research target job posts from area employers and relevant state requirements, barriers or restrictions to ensure eligibility upon graduation.

Some training programs and/or certifications may not be accepted in your state, please review our [State Restriction](#) page to confirm eligibility

CAREER SERVICES

For all MedCerts Students that are not affiliated with an employer partner, you also have the added benefit of Job Search Assistance including guidance with resume building, networking, interviewing, and job search tips.

ATTAINABLE CAREERS

- Cloud Integration Specialist
- Cloud Developer
- Cloud Security Expert
- Network Engineer
- Development Operations Engineer (DevOps)

TARGET CERTIFICATIONS

Certifications	Issuing Authority	Exam Details
CompTIA Cloud +	Computing Technology Industry Association (CompTIA)	Maximum of 90 multiple choice and Performance Based questions Time limit: 90 minutes

Course Code	Title	Hours	Weeks
IT-7011	CompTIA Cloud+	48	3

EXPERIENTIAL/CLINICAL COMPONENT:

Experiential/Clinical Component Requirements (not a requirement for IT-7100 Cloud Computing) – Once students complete this program, they will be able to immediately start working with Career Services at MedCerts.

CRIMINAL BACKGROUND CHECKS AND DRUG SCREENING POLICY:

MedCerts does not perform criminal background checks, nor do we test students for illicit drug use. Please be advised that while MedCerts does not perform these checks, the student's drug, criminal, or immunization status may prevent clinical/externship placement and future employment as a healthcare or IT professionals. Externship sites, employers, and State Boards of Pharmacy or other regulatory boards have regulations about immunizations, drug use, and criminal backgrounds. Regulatory boards, externship sites, employers, and other organizations that may require these screenings for placement, and adverse results may prohibit you from moving forward in the program. Candidates with a felony conviction are not eligible to participate in ANY MedCerts program that includes the Pharmacy Technician certification as a primary or secondary certification

The student understands that MedCerts does not hold any control over the drug, immunization, criminal, or background screening processes or policies held by any organization outside of MedCerts.

Upon 100% completion of this program, students will receive a "MedCerts Certificate of Completion." This is proof of completion of training but isn't a nationally recognized certification. Students are expected to take and pass the national certification exam through the issuing authority for recognized certification in their field.
